VINOLIA PREPARATIONS. A FEW WORDS ON VINOLIA. The reception and widely established substantial reputation of Vinolia are due to the fact that it fulfils a function which nothing 592 has ever done in the same measure. It is bland and soothing, yet free from narcotica and other toxic ingredients. It is noteworthy that it is not sticky or greasy, and also that it is the only unquent that will wash off. It is the only agent that will relieve the most intolerable itching every time : thus in all forms of skin imitation its usefulness is supreme. The leading medical men of the world prescribe it. For eczema, burna, piles, chiaps, chilblains, &c.,

it is facile princeps .- Per Tin, 75 cents. A FEW WORDS ON 'VINOLIA' SOAP. There are soups and soaps -soaps with flowers figured upon them in bas-relief, soaps of lovely tints and pero and attractive por fume, and soaps as cheap as dirt. But a goodly outside is no voucher of a goodly substance. So we find alkalies lurking in Singapore. even finest toilet soaps, and cauticizing the skin, drying it, and predisposing it to all manner of troubles, and aggravating discases already established. Vinolia Sosp is superfatted, lathers freely, does not crack, and wears away slowly. Another thing: It contains less water than any other soap. Itis not generally known that the cow with the iron tail' has yielded as much soap as milk! There are plenty of soaps 585 containing ferty per cent. of water. On this score plone Vinolia Scop is the

chospest of all sosps. In boxes of 3 Tablets, Toilet ... \$1.25. In bexes of 3 Tables, Medical \$1.00. Nos. 21 & 24, QUEEN'S ROAD CENTRAL

It is estimated to cost between \$10,000 and \$15,000, and each of the gantlemen named has undertaken to provide 85,000, the surplus to be given to masonic

charities. An inquiry is to be held at the Magistracy on Tuesday in conhection with the death of the unknown Chinaman whose body, severely gashed on the head, was found floating in the harbour yesterday. There seems to beno possible doubt that the man was murdered, and the probability is that the murder was perpetrated in Hongkong. The Chiness characters inscribed on a piece of wood attached to the deceased's grove indicate that the man belonged to class of informers greatly detested by members of the thiering faternity who are wanted by the Chineso authorities.

He contended that the exclusion of the public, on the ground of public poexclusion was necessary to the ends of jus tics. In giving judgment, Mr Chief Justice O'Mailey said the conviction must be anashed. The rule in public courts was publicity, and if the proceedings were conducted in private good grounds must be shown for the exclusion of the public. There might have been good grounds, but what was before the Court did not show that the ground was good. The proceedings therefore were irregular and the conviction bad. He also proposes to repeal the compulsary feature of the present Comage Act. The Secretary thinks this proposition, which he explains at length, will provide the mest, sur st, and most satisfactory solution of the silver problem as now presented to the country. Under this plan the United Sta's mints would be opened for the free deposit of silver, its market value being paid in Treasury notes. These notes would be redeemable in the quantity of silver which could be purchased by the number. of dellars expressed on the face of the notes or ingold. THE NEW PUNJOM COMPANY We observe from the London and China Papress received by last mail that the prospectus of the Penjom (Punjom) Pahang Gold Company, in connection with which Mr Becher recently went home, was issued to the public last month. It sets forth that the capital is £100,000 in £1 shares, whoreof £100,000 are to be allotted to the Penjom and Sunghie Dus Samantan Mining Company (Limited), of Victoria, Hongkong (Concessionaire and Pioneer epresenting the Hongkong and Shanghai Company), and £90,000 are offered for Police having resulted in each making the subscription. In this way, the prospectus states, all the tedious delays inseparable from starting mining operations should not be experisneed by the shareholders. The prospectus goes on to say :- This Company takes over three 8 h.p. (nom.) steam engines, and two water whoels now working, head of stamps, together with a consider-

A report from Mr Booher is given from which the following is an extract :--Auriferous quartz is found abundantly on the surface and can be traced to its matrix as veins in the slate. All more or less auriforous, and frequently abowing gold to the naked eye; this quartz also contains varying proportions of iron and amenical pyrites. Occasionally the gold is found in rich streaks between the quartz and soft black slates, and former rative minera are said to have struck many patches of nuggets of which the best had to be dedicated to the Sultan's Treasury. Judging from the general remarks I

have heard concerning Mr Becher, during my travels in the East, and my own knowledge of his connections, past and prosent. I can unhesitatingly assert that both his professional and social status are of the highest, and such as would influence any one in accepting his statements and suggestions with implicit faith.

I shall be more than surprised if, under his management, the Penjom property would not rival many of the most prominent gold mines of the present day."

Mr E. H. M. Gower, (the prespectussets forth) who has had considerable experience in Gold Mining, and who during a lengthened residence in the East-ten months of which were spent in examining the formations in Pahang-because well acquainted with the Penjom District, writes, in answer to an invitation to rejoin the Board:-

MORMONS IN LONDON London, February 24. - A party of Mormon missionaries, who are at present ongaged in a proselytizing campaign: in. London and other parts of Great Britain, had a live'y time of it in East London. The missionaries, three in number, began a meeting or service, and in a short time a large crowd had collected. The missionaries were listened to with attention for a time, but presently irreverent remarks could be heard, several persons in the crowd being particularly anxious to know how many wives one of the elders, a venerable individual with long, white hair,

These interrogations disconcerted the Mormons and excited much laughter and jeering among the crowd. Presently a member of the Anti-Mormon League appeared on the scone to offer opposition to the Litter Day Saints. He reminded the crowd that not very long ago a young woman, one of their number, who had been induced to emigrate by Mormon Mission-

It was consequently a real and neuralgia are but symptoms of indigesconcession to Russia to be allowed the use tion, constipation, and dyspepsia. of the two affinents, which then flowed entirely within the dominions of Chine. But, true to their traditions the Chinese authorities barred the fulfilment of the stipulation, and refused passage to Russian craft on the two rivers, although by a subsequent treaty in 1860, the whole right bank of the Usuri had been ceded to Russia during the panio caused by the Franco-English invesion. Russian trade was not perhaps in so forward a condition as to feet the privation very keenly, and Government seems to have been

The occasion was the attempt to open up gold mines ou the Moho in North-western Manchuria, a project which the Government was zealous not been true to her ongagements under the Treaty of 1858, Russia was thereby released from hers,and China was excluded from the Amur. The Moho mines could not however, bo worked without machinery, and Chinese Government was forced to become

a supplicate for favours. It was now, however, the turn of Russia to assume the role of passive resistance which China had hitherto regarded as her own prerogative; the material lay for months under embargo, and not until, other means failing, the Russian Minister in Peking was induced to use his good offices in interesding with the Government of St. Petersburg was the obduracy of the Amur authorities melted. In this affair H.E. M. Coumany acted a most friendly part to China, and earned, as

be deserved, and not on that occasion only, the gratitude of more than one importan Ohinese official. The incident made a deep impression

on the Chinese, and the helplessness of their position was brought home them with uppleasant emphasis. They now see that Russia reserves to sole use that grand water way, the Amur, while the Songari, which China vainly imagined she was reserving for herself is rendered absolutely useless to her except under sufferance of Russis, which commands its mouth, and, as circumstances now are, controls its whole course. Were China a strong, or even a wakeful or intelligent power, she still retains as against Russia the immensuad vantage of facing down stream; and, given the requisite material and men sho could even turn the tables on her rival, and not only keep the Songari, but dominate the Amur itself. This is precisely what the Russian military authorities. are exercised about, for if the Chinese Government really had the wisdom and energy to make a railway to Kirin, to establish a strong military position there, to create a flotilla properly armed, to be carried in pieces by rail and put together due 16th August, 1889, is still unpaid, that in a Kirin naval yard, then Ohina might have the command of the Russian com- 12 % per annum from 16th August, 1889, munications as in the absence of all or any be PAID on or BEFORE THE 15TH OF APRIL of these appliances, Russia now has of the NEXT, the Shares will be dealt with by the Chinese. To the Proprietors of Mother Seigel's

GENTLEMEN, -The following remarkable cure was related to me by the husband. Mary Ann Spink, of Finborough, Suffolk, was for over twenty years afflicted with rheumatism and nouralgia, and although comparatively a young woman at the time she was attacked (she is now fifty), she was compelled, in consequence, to walk with two sticks, and even then with difficulty and pain. About a year and a half ago she was advised to try Mother Seigel's Syrup, and after taking three bottles and two sexes of Seigol's Operating Pills, the use of her limbs were restored, and she is now ablo to walk three miles to Stownrarket with ease; frequently doing the distance in three-quarters of an hour. Any sufferer who doubts this story can fully ascerta n its truthfalness by paying a visit to the village and enquiring of the villagers, who will certify to the

Stowmarket. This is certainly a very pitiable case, and the happy cure wrought by this simple but powerful remedy, must move the sympathy of all hears in a common pleasure. This poor woman had been a cripple for twenty of her best years; years in which she should have had such comfort and enjoyment as life has to give. But, on the contrary, she was a miserable burden to herself and a source of care to her friends. Now at an ago when the rest of mare growing feeble, sho, in a manner, renews her youth and almost begins a new existence. What a blessing and what a wonder it is! No one who knows her, or who reads her story, of bringing about a core that reminds uswe speak it reverently of the age of

miracies. It should be explained that this most remarkable cure is due to the fact that rhoumatism is a disease of the blood. digestion, constipution, and dyspepsis couse the poison from the partially digested food to enter the circulation, and the blood deposits it in the joints and pruscles. This is rheumatism. Seigel's Syrup octreds the digestion, and so stops the further forms. tion and deposit of the porson. It then removes from the system the poison already there. It is not a ours-all. It does its wonderful work entirely by its mysterious action upon the digestive organs. But when we remember that nine-tenths of our allments arise in those organs, we can understand why Soigel's Syrup cures so many
